

U.K Poem

The United Kingdom is our home
Lions, Giants, Unicorns, Dragons roam.
England's the largest, the lions land,
The capital is London and in Preston we stand.

Scotland is north where the unicorns are,
Edinburgh is the capital but the Loch Ness Monster is the
star.

Wales joins England on the side,
From Cardiff to Snowdon the Dragon glides.

Northern Ireland is across the Irish Sea
Belfast is the capital and the Giants causeway what a
wonder to see.
